

REMARKS

Claims 1-11, 14-38, and 42-81 remain pending.

Applicants elect Group VII, i.e., compounds wherein the ring containing Q is phenyl, with traverse.

Restriction is only proper when the Examiner would be seriously burdened in the absence of restriction. See MPEP §803. In the present case, the Office has not met its burden of demonstrating that the Examiner would be seriously burdened by examining all of the claims without restriction. Accordingly, the Restriction Requirement is improper and should be withdrawn.

Referring to paragraph (5) of the Restriction Requirement, Applicants elect, with traverse, Claim 50 for initial examination purposes only. Applicants note the rejoinder provisions of MPEP §821.04. Claims 51-79, directed to methods, and Claims 80-81, directed to compositions, each depend from Claim 1. Therefore, upon the allowance of Claim 1, Claims 51-81 should be rejoined with the elected claims.
